CAREER OBJECTIVE

Aspiring software developer seeking an entry-level role where I can apply my knowledge of programming, computer science fundamentals, and problem solving skills to design, develop, and maintain efficient software applications while continuously learning and contributing to organizational growth.

EDUCATION

PANIMALAR ENGINEERING COLLEGE , CHENNAI - 600123 Bachelor of Technology-Computer Science & Business Systems CGPA: 8.6 / 10.0	2023 - 2027
VIDHYA NIKETAN HR SEC SCHOOL , PUDUCHERRY - 605009 HSC – Class XII Percentage: 78%	2022 - 2023

PROJECTS

Smart Trip Planner - Project	2025 - 2026
Developed a web-based travel planning application where users can enter a destination, trip duration, and budget to receive day-wise place recommendations using map APIs, with features to save itineraries to a dashboard, download trip plans as PDFs, and log in securely using Google OAuth.	
Music Application (Qspiders, Chennai)	Feb 2025 - Apr 2025
Project Title: Music Application – Web-based Music Player Built a responsive web music player that allows users to play, pause, and navigate through tracks. Features include a user friendly interface and real-time audio control. Developed using HTML, CSS, and JavaScript. Hosted on Firebase and available on GitHub for public access and collaboration.	
Chrome Extension – Image Downloader	2025 - 2026
Developed a Chrome extension that allows users to download images from web pages using cursor-based selection. Supports JPEG and PNG formats with customizable image sizes and quick activation via a keyboard shortcut (Alt + Q). Utilized Google AI Antigravity for debugging and performance optimization.	

EXPERIENCE

Internship
Web Development Intern VaultofCodes
Undertook a one-month internship involving practical web development tasks. Designed and implemented a project using modern web technologies, strengthening skills in UI design, responsiveness, and structured development practices.

TECHNICAL SKILLS

Languages : Java , HTML, CSS, JavaScript , Python (basics)
Libraries : React.js
Backend : Node.JS, Express.JS
Databases : PostgreSQL
Developer Tools : VS Code , Git , GitHub , Antigravity .
Problem Solving : Data Structures and Algorithms; solved 100+ problems on LeetCode

CERTIFICATES

Feb 2025 Qspiders, Chennai. (Web Development)
Oct 2025 NPTEL Swayam. (Basics of Machine Learning)

LANGUAGES

- English
- Tamil
- French (basics)
